Kolkata: [Della Leaders Club \(DLC\)](#) — a global community of entrepreneurs, young leaders and professionals — has launched their Kolkata chapter recently to come up with a support system for budding bigwigs.

The DLC that was started by the founder and CEO of the Della Group, Jimmy Mistry, in New York in June this year, is looking forward to setting up 120 chapters in eight phases in the next five years.

"Kolkata has been chosen as an integral part of the 15 chapters in the first phase — New York, London, Dubai, Hong Kong, Singapore, Bangkok, Mumbai, Delhi, Hyderabad, Pune, Ahmedabad, Indore and our global chapter. We have at least four honorary committee members (HCMs) from each of our 26 committees in each of our chapters like Kolkata, where we have some of the best talent in art and culture," Mistry told TOI.

Asked about the club's objectives in Kolkata, Mistry said, "DLC Social Impact is a global movement and we map and connect the collective power of DLC members with NGOs to empower those facing adversity. We want to take our members from a journey of success to that of significance. Since Kolkata is a city of intellectuals, we want our members to be immersed in a culture of excellence with business expertise and sharp minds for professional growth."

Till now, DLC has selected 2,250 HCMs for their individual expertise in various entrepreneurship segments.
